Pain Management

## **CONTROLLED SUBSTANCE POLICY**

All prescriptions for controlled substances should come from **one** provider.

It is a felony to request or receive prescriptions from a provider for controlled substances if that provider is not made aware of other prescriptions.

I further understand that I should avoid driving or using dangerous equipment that requires a high level of alertness.

By accepting prescriptions for controlled substances from this practice, you acknowledge that you understand and will comply with this policy.

1. One Provider for controlled substances.
2. Controlled substances are refilled once a month (30 day period).
3. Patients need to make a follow-up appointment at least two weeks prior to medication due.
4. Medication refills will not be given early. **Controlled substances are not refilled by phone or fax. No exceptions!**
5. Controlled substance prescriptions that are lost, stolen, or other circumstances, you must provide this office with a copy of the police report. **NO EXCEPTIONS.**
6. **I will comply and use the medication for its intended use only and as directed.**
7. If you run out of your prescription before it is due, that means you are not taking the medicine as prescribed. If you are having extreme pain, please call the office at 562-3039.

I further understand that if I am not compliant with the above, the Lemper Pain Centers will no longer prescribe controlled substances.
